- 500-sheet Universal Tray
- 75-sheet Envelope Tray

The Elite XL 20/1200™ is a large format laser printer that offers your business high-speed and high-resolution output with the quality and reliability you expect from GCC Technologies®.

At 20 pages per minute and 1200 dpi resolution, the Elite XL 20/1200 provides fast, professional quality output for all your business needs and the economy of multiple originals without having to run to the copier.

The Elite XL 20/1200 ships with a 500-sheet universal paper tray that handles all the standard paper sizes. The 150-sheet multi-purpose tray can handle these sizes as well as transparencies and posters up to 330mm X 900mm. The optional second and third paper feeders support two additional 500-sheet paper trays for a total tray capacity of 1650 sheets.

The Elite XL 20/1200 is also incredibly reliable. It's been designed to last for well over a half million pages of output. When you need to change toner, there's nothing simpler or cleaner than GCC's one-piece toner/drum cartridge.

In addition, the Elite XL 20/1200 offers true multi-platform printing. With both PostScript and PCL languages built in, the printer can handle jobs from Macintosh®, Windows®, UNIX and DOS platforms effortlessly.

The Elite XL 20/1200 has built-in networking capabilities, so it's ready to plug into your LocalTalk, EtherTalk, Windows NT, Netware or Berkeley UNIX network right out of the box. There are no network cards to purchase or install. GCC's proprietary AccuGray™ technology assures crisp, clear halftone reproduction unparalleled in the industry.

There's also flexibility in remote printer management. GCC's WebAdmin™ software allows you to change menu settings and perform printer diagnostics from virtually anywhere using the Internet.

So, if your business is looking for a laser printer that combines speed, reliability, flexibility and unsurpassed output with GCC's continued commitment to quality and service, you're looking for the GCC Elite XL 20/1200.

Rapidly processes your complex documents
and graphics.

Produces camera-ready resolution for crisp, clear
output on paper sizes up to 330mm X 900mm

Ensures compatibility with both Macintosh® and
Windows® platforms.

Produces output as large as 320mm X 900mm for
full bleed A3 prints.

Results in halftones that are printed consistently
regardless of line frequency or resolution.

Designed to support up to 1650 sheets of paper;
more work is completed without having to
reload paper trays.

Comes ready to use with your existing
network – EtherTalk®, TCP/IP.

Permits printing through all connections
concurrently.

Automatically differentiates and switches between
PostScript and PCL 5.

Provides remote access, via standard web browsers,
to printer interface settings, network protocol
parameters, printer status, paper handling
capabilities, and nearly every other aspect of the
Elite XL 20/1200 printer from your computer.

Allows for the connection of an external hard
drive to expand your font library.
