Which large-format business printer combines high-speed output for correspondence, spreadsheets and reports with high-resolution for presentation graphics, all in a multitude of paper sizes, with the quality and reliability you demand? The Elite XL 40™ from GCC Technologies®.

At 40 pages per minute and 1200 dpi resolution, the Elite XL 40 provides sharp, clear output for text, reports, charts, and newsletter graphics. GCC's proprietary AccuGray™ II technology assures crisp, detailed black and white graphics with real depth to them. The printer also offers the economy of multiple originals without having to run to the copier.

The Elite XL 40 ships with a 500-sheet main tray that handles many popular sizes up to A4+ and a 150-sheet multipurpose tray that can handle these sizes, as well as transparencies, posters and other media types up to 305 x 900mm. With the addition of the High Capacity Feeder and other optional trays, the input capacity can be expanded to an incredible 3,150 sheets, which minimizes the need to reload and change media.

When you need to change toner, there's nothing simpler or cleaner than GCC's one-piece toner/drum cartridge.

The Elite XL 40 is also incredibly reliable. It's been designed to last for well over a half million pages of output.

In addition, the Elite XL 40 offers true multi-platform printing. With both PostScript and PCL languages built in, the printer can handle jobs from Macintosh, Windows, UNIX and DOS platforms effortlessly.

The Elite XL 40, with GCC's exclusive AccuGray™ II technology, can support both your business and graphics needs with superior image quality. AccuGray II provides crisp, clear and customisable halftone reproduction that is unparalleled.

There's also flexibility in remote printer management. GCC's WebAdmin™ software allows you to change menu settings and perform printer diagnostics from virtually anywhere using the Internet. So, if you're looking for a large format business printer that combines speed, reliability, flexibility and higher resolution with GCC's continued commitment to quality and service, you're looking for the GCC Elite XL 40.

(BENEFITS)

(SPECIFICATIONS)

Power PC Processor @ 333 MHz	Rapidly processes your complex documents and graphics.
True 1200 x 1200 Addressable Resolution	Produces near camera-ready resolution for crisp, clear output.
PostScript® Level 2, PCL 5, PCL 6. Type 1 and TrueType	Ensures compatibility with both Macintosh® and Compatible Windows® platforms.
Edge-to-edge Printing	Produces output as large as 305mm X 900mm full bleed, tabloid prints.
AccuGray™ II Enhancement	Results in halftones that are printed consistently regardless of line frequency or resolution.
Exceptional Paper Handling	Designed to support up to 3150 sheets of paper; more work is completed without having to reload paper trays.
Ethernet Standard	Comes ready to use with your existing network – Ethernal®, TCP/IP.
"All Ports Active" Design	Permits printing through all connections concurrently.
Automatic Emulation Sensing	Automatically differentiates and switches between PostScript, PCL 5 and PCL 6
WebAdmin™	Provides remote access, via standard web browsers, to printer interface settings, network protocol parameters, printer status, paper handling capabilities, and nearly every other aspect of the Elite XL 40 printer from your computer.
Transmit-once Collation	Enjoy the luxury of multiple original prints without tying up your computer or the network. Your job is sent to the printer just once, no matter how many copies you select to print.
Memory Upgrades	The standard 64 MB configuration can be expanded up to 320 MB, using industry-standard DIMMs.
